I had a woman
I had a child
I haven't seen them
For a long while
I left Virginia
I had to go
Where I was going
I don't really know

Chorus:
If I live, if I die
Either way I won't apologize
For the lift that I live
I got nothing but my song to give

I have a father
I have a son
I never said
I'd be either one
So don't you hold me
Don't you try
It's never easy
Each time I say goodbye

Chorus

Baby, what you wanna know about me?
Baby, said what you wanna know about me?
I'll be back
I don't know when
And then I'll hold you
In my arms again
The only joy I ever knew
Were all the times
That I spent with you

Chorus
