What is happening to me?

When I love you

I am conquering.

I have never know what to say,

And I am not talking just because I want to,

What is happening to me?

This mad fear,

I love it so much that I don't know

How to attack.

Help me,

To live one adventure so many time,

To invite crazy you,

Help me, help me,

Because we are husband and wife and it is good,

Relations between us,

Help me.

What is happening to me,

Better than what is happening with us,

Like we are one but no,

We know how to connect,

What is happening with us,

When I imagine to caress you,
I am looking you for an hour and you said what
It's too late.
Help me,
To live one adventure so many times,
To invite crazy you,
Help me, help me,
Because we are husband and wife and it's good,
Relations between us,
Help me, help me,
One hour of love,
Wish like I do,
Help me,
Surrender to me,
Help me
