I want you

I know that good,

You can't surrender to me, too,

It looks sincerely to me,

I am not a drowning person, by you.

I have a little of friends

Or whatever,

You are not feeling like I do,

When I am bad,

When I am flying

You are flying with me.

I said to you

That I have power of illusion,

That I can love and be loved,

I can't be happy

Because I can't make difference

Between love and flattery,

I don't like to dream,

I am watching life trough the sea,

Like hermit.

I want you,

Understand me,
There is only one problem
Religion,
I don't know how we are still together,
I know exactly what I think about love.
I said to you
That I have power of illusion,
That I can love and be loved,
I can't be happy
Because I can't make difference
Between love and flattery.
And you too,
I am imaging love,
Funny letter,
Between love and flattery
