"Fire Against Fire"

I am without wish to fall in love,
And I don't know why that's so usual
I am faithing with love
It's my beginning, my end,
It's hell on the sky,
With shy kiss,
You are taking my heart.
To love you is fire against fire,
Fire we can't escape,
Where no body hear my voice,
Here I am waiting for you,
To love you is fire against fire,
And we can't escape from it.
Don't search for explanation
Our love is clean.
I am without a wish to fall in love,
And I don't know why it's so usual
With shy kiss
You are taking my heart
