In one moment your love is reason  
For new aventure,  
For fears and hopes,  
And after all for wish.  
When I stop loving you, I'll break you,  
In one moment I am like air,  
Cold leaf and pleasure,  
You know how to refresh me,  
Fly belongs to the sky,  
Between your hands, fly,  
You love me and fly,  
I am playing with your kisses,  
Between your hands, fly,  
Fly into the sky,  
You don't belong to the sky,  
I have one wish  
To left the love
