I search for a storm

and bolts of lighting in your skin and

The hurricane of your shameless body

Make love with me

It's nothing bad

The sweet and salty

Will blend

Let's make love

Your shameful passion

Escapes from your hands

I kiss your warm hips

With my lips

Make love with me

It's nothing bad

You won't come out hurt,

Nor I harmed

If just by looking at each other

We desire each other

We devour each other with our eyes

Always the two of us

Loving each other

Let's make love

Let's make love

Let's make love

Let's make love
