I don't know how to start,
Only I know is to turn on lately,
And to make desigions alone,
I can't see the light
Which is in my eyes,
And I am thinking of you,
I think this is crazy.
And till you are far away
I am, like always, waiting for you here,
Because you'll come back,
Because I can understand you.
Who is love of my life,
My heart tells me not to forget you,
Now, I have reason to continue with life,
And I can be happy because now I know
Who is love of my life,
My heart tells me not to forget you,
Because I have a vision which I can say to somebody,
I know it is truth.
Today, sun was shineing,
And I remembered of you,
And so is everyday,
But what for you'll come back,
I'll meet you on my way,
And you'll be centre of my life,
Maybe I'll tell you about magic aventure,
To stay together forever,
What takes man which is waiting,
One star is found
