It is not because of you,
Because of suspicion too,
And because of you and your way you are living your
life,
I am like this,
I like to do crazy things,
Nice, sexy woman is stealing my heart,
But, I can't be your song.
It is not the end,
It is reality, please listen to me,
Party and the smell of other woman goes with me,
Beautiful moments, you and me,
But, I am already on the motorcycle.
When I see beautiful woman my legs are dancing,
Wild foal without tramer,
I wanna love,
The second face of pain in love,
I am waiting for you to be good feeling,
In reality sun will arise soon
