Stay every night
And dream of me in the moon
Love me on the streets
Lost from my life
Kiss me little by little (slowly?)
I can't be dying
Alive with this craziness
Lost that loves you
If I miss your presence
I loose myself looking for you
I close my life, I close it for me
The empty book of my life
The empty book of my life
I'm lost without you
Don't leave me all alone
Without you
Stay in my house
Te amo
Without you I have nothing
Te necesito
Without you there's nothing left

I'm lost
Don't leave me all alone
Without you
Stay in my house
Don't leave
Without you I have nothing
Wait
Without you there's nothing left
Love
Stay
Love
Stay
All of your life
Stay
Lost without you
Stay in my memory
And hide yourself in my arms
Soak into me through my pores
Opened by my wound
Look at me from nearby
And kill me if you want
But don't abandon me
To the wind of my life
