Chain

Chain me to the railroad tracks

Felt just like a freight train

When you said you ain't comin' back

Heartache, tears, and loneliness

Ain't nothin' you can do to hurt me more than this

Chain me to the railroad tracks

Baby, I'm trying hard to understand it

After all, you said our love was true

Now, you wanna go and leave me

Acting like you don't need me

There's just one thing left for you to do

Chain me to the railroad tracks

Felt just like a freight train

When you said you ain't comin' back

Heartache, tears, and loneliness

Ain't nothin' you can do to hurt me more than this

Chain me to the railroad tracks

You can't make my heart feel like it's over

When pain like this just wants to hang around

Can't you see just what you're doing

With those goodbye words you're using

Might as well go on and lay me down

Chain me to the railroad tracks

Felt just like a freight train

When you said you ain't comin' back

Heartache, tears, and loneliness

Ain't nothin' you can do to hurt me more than this

Chain me to the railroad tracks

Heartache, tears, and loneliness

Ain't nothin' you can do to hurt me more than this

Chain me to the railroad tracks

Chain me to the railroad tracks
