I feel a heartache comin' on  
I feel a change in the wind  
Your restless heart is almost gone  
And I'll never see the likes of you again

God, I hate to think about lonely  
How can I love someone new?  
I loved being your one and only  
And I just can't see me without you

I feel a heartache comin' on  
I feel a change in the wind  
Your restless heart is almost gone

And I'll never see the likes of you again

Once we had it all, but it's over  
Now there's a new look in your eyes  
Soon I'll be yesterday's lover  
Just as soon as you tell me goodbye

I feel a heartache comin' on  
I feel a change in the wind  
Your restless heart is almost gone  
And I'll never see the likes of you again

Your restless heart is almost gone  
And I'll never see the likes of you again
