Come to see eternity  
See the light within the dark  
Hear evil, see evil  
I am your dark shadow  
I'm your mirror though distorted, shattered sevenfold

[Chorus]  
You can't control the fire  
I can make your spirit burn

Come, embrace your deepest fears  
Find divinity with me, seal your destiny  
Go beyond insanity

[Chorus]  
You can't control the fire  
I can make your Spirit Burn

We can controll the fire  
We can reach the spirit world
