Strum for me on your harmony  
Steel and wound, your rocket ship launches on  
Hush little sugar don't forget  
All your sails are up and dancing in the air

Tarnished stars hung, broken night song  
Reason cannot cry but I love you always  
Lighting seeds crash pale on your pillowcase  
Teary eyelids fall but I love you always

Play & sing on your harmony  
Shiny black your compass flips and draws you back  
Hush little sugar have no fear  
Strum for me & float into the midnight sea

Tarnished stars hung, broken night song  
Reason cannot cry but I love you always  
Lighting seeds crash pale on your pillowcase  
Teary eyelids fall but I love you always
