Verse 1

We're coming straight outta Stockholm so get ready to
get down
Our Entourage far too large for that town
Wildin out on the southern island the games called
dames down
My tactics to dance like James Brown

Chase like Vince aims for fame
My word is Bond like James the name
My taste the same in women so I steal his bond braud
Operate on that shell like I'm a motherfucking bomb
squad

When I say Yo she says Yeah!
Then we uh uh the fuck outta there
I kill the bad guy so much bloodshed I
Get Red eyes as if I'm mad high

Pre-chorus:

I really don't think I should be with you right now
But I do think that this is right somehow
So while we make out/do stuff I feel like I just feel just
fine
Really don't think I should be with you right now
But I do think that this is right somehow
So while we make out/do stuff I feel like I just feel, just
fine

Chorus:

Hey, babe I'm goin' away,
I'll miss you (honestly)
Although I don't display
A whole lot in my face
Yeah don't you bother chase
I'm in a different place,
Don't hate me for my ways
Understand, love and peace

Verse 2:

Bow, down, for what by popular demand

Rise to the top and then fight to withstand now
Many, settle, still, set, that, scene, on, fire
But never trigger the siren

We all look up and say damn this road is tough!
Machete cut through musical jungle now that's ruff
Seeing as all the promising musicians by my side
All go down in flames come then say that I

Pre-chorus:

I really don't think I should be with you right now
But I do think that this is right somehow
So while we make out/do stuff I feel like I just feel just
fine
Really don't think I should be with you right now
But I do think that this is right somehow

Chorus:

Hey, babe I'm goin' away,
I'll miss you (honestly)
Although I don't display
A whole lot in my face
Yeah don't you bother chase
I'm in a different place,
Don't hate me for my ways
Understand, love and peace

Verse 3/Break:

And now we're back for the encore
Once more, doing what I came here for
While I speak up and demonstrate a little backbone
No you silly, he is not from Philly
He's from Stockholm city, still his bombs are killin'
And every radio and TV station about to broadcast
Shoutin' out from all over the globe, a news flash
Chrystal mystal meth crack, get high on that
Or stay tuned for that aerial knife attack
So get with it!

Chorus:

Hey, babe I'm goin' away,
I'll miss you (honestly)
Although I don't display
A whole lot in my face
Yeah don't you bother chase
I'm in a different place,
Don't hate me for my ways
Understand, love and
