Verse 1:

I grew up in the 90's lungs filled  
When grunge killed rock exhale now my tongue spills  
Thrills for each and every listener one skill when I  
respond to drum fills  
And fill bars the way drunks chill

To bad beer I adhere like bums will to park benches  
Until my fronts ill then  
I'm a Pearl Jammin' out of my shell  
In a club see this girl a slammin mademoiselle

I reach hell that's how deep her eyes are  
oh yes that's my line and guess how far  
it takes me to lie in heaven or some higher level  
at night I'm a rebel at nine I must settle like

Cobain's route though ain't no gauge sprout  
Yesterday's stouts have blown brains out  
"Hempzee, you need change like a homeless"  
My dome says to me I ignore and squeeze a boobie

Break:

Put me on the ride x8

Chorus:

Ni/Ni/Night and day, time flying away  
Time flying away, but what can I say? x2

Verse 2:

And then decennia ends, into a whole new millenia  
Zits start to spread like shotgun frag shellin' ya  
Never underestimate the power of my ego  
"Graffiti yo" then wake with breakfast made by mom  
and even though  
I really never felt I had the right to complain  
My life rocks yet i got the power to sustain while eatin'  
grains  
And healthy stuff injected through my veins  
I'll never need a cane to ease any backpain  
A thin line balance 'tween the moral and addiction

Know where I am needed but still up for the attention  
Beautiful honeys, want me to party, silent like WALL-E,  
I nod and then surely end up somewhere on the other  
side of town

But nevermind tonight - it'll do 'til I go down  
"You want me here tonight?" - I said it'll do 'til I go  
down!

Wait! I'm sorry, just put me on the ride

Break:

Put me on the ride x8  
And then drive 'til I die

Chorus:

Ni/Ni/Night and day, time flying away  
Time flying away, but what can I say? x2

DJ/Guitar solo

Chorus:

Ni/Ni/Night and day, time flying away  
Time flying away, but what can I say? x4
