Verse 1

I fell in love with a chick flick
It made me feel alright
Though all the people who saw that
Couldn't make me out

I wouldn't wanna risk that
Cause it would be a shame
To just start the conversation
By pressin' out a hey!

So I went out in front her
And told her face to face
Asking are you christian,
Or can we speed the pace?

But I wouldn't wanna risk that
Cause it would be a shame
To just start the interaction
Guess it would have made my day

Chorus:

I said baby! - are you single!?
Would you like it - just to mingle!?
Do you want him - play a solo!?
Do you want me - to go down on..?

Post-chorus:

You don't really wanna
See me come back from the bar now
You don't really wanna
See me come back - pick up the pace!

Single. baby. baby. single. single. single. baby. baby.
Single. baby. baby. single. single. single. baby. baby!

Verse 2

I went out to get some
And got into the mood
I said "hey lady, what are you cookin'?"
I'm starvin' for your food!"

yeah I couldn't get rid of the feelin'
She is the one I want!
I said doll your shit up baby
Now let us hit the resturant, come on!

Chorus:
I said baby! - are you single!?
Would you like it - just to mingle!?
Do you want him - play a solo!?
Do you want me - to go down on..?

Post-chorus:
You don't really wanna
See me come back from the bar now
You don't really wanna
See me come back - pick up the pace!
