River, river, silver streams  
and fishes swimming onward  
Jumping in the spray  
of water lapping at your feet

Into my own heart you flow  
You know I'll never let you go

All you need is love  
to show you the way from here  
Oh, dear, won't you come near  
La la la la la la  
La la la la la la  
la la la la la la

All you need is love  
to show you the way from here  
Oh, dear, won't you come near  
La la la la la la  
La la la la la la  
la la la la la la  
la la la la la la

River, river, silver streams  
and fishes swimming onward  
Jumping in the spray  
of water lapping at your feet

Into my own heart you flow  
You know I'll never let you go

All you need is love  
to show you the way from here  
Oh, all you need is love  
to show you the way from here  
Oh, all you need is love  
to show you the way from here

Oh...
