I lay my head on your thighs

And close my eyes

And think of

All of our days

Fast moving months

They pass us by

For me things take time

To seep in, into this mind

All over this place

My opinions fly

We went blind

Into this standing

No pattern to follow

Only, go here now

All over this place

I am not my own

I want to be just like you

And I, I want to be free on my insides

And prefer to raise others

Above, above myself

When you're asleep

I miss you the most
You're already five years
I feel tossed to and fro
All over this place
Playing is calling my name
Papa, papa, papa, papa
Papa, papa, papa, papa
Papa, papa, I am not my own
All over this place
Playing is calling my name
I want to be just like you
And I, I want to be free on my insides
And prefer to raise others
Above, above myself
When it comes to you I've been lazy
But now I need you
I put down myself just to hide
Right behind, oh you, you
When it comes to you I've been lazy
But now I need you
I put down myself just to hide
Right behind, oh you, you
I want nothing
Of the world in me
