Mangled and disfigured
Scorched and water soaked
Ruined, wrecked and ravished
Crumpled burnt and shattered
Bent out of proportion
Crushed into contortion
Smashed and left in pieces
Nothing left in tact
Casualty affect
s the human race
Air travel turns to a disgrace
Fly the friendly skies
Gruesome way to die
With the ground collide
Down the bodies come
Loss of our loved ones
Survivors there are none
On a hijacked plane

Dead if you complain
Bullet in your brain
30.000 feet
Thrown out with your seat
Soon the ground you greet
Casualtiy affects the human race
Air travel turns to a disgrace
Fly the friendly skies
Gruesome way to die
With the ground collide
Down the bodies come
Loss of our love
d ones
Survivors there are none
Go through their wallets
We don't give a shit
Lets find the luggage
