Middle aged man at 42
When you were younger
You snorted cake and freebased too
Didn't think what you were doing to your heart
Now it's over time to depart
You get high blood pressure
You're in your bed
Heart is weak soon you'll be dead
Your
heart gives out it's such a strain
I'm glad you're dead and you felt fucken pain
Your wife wakes up and she is trippin'
Her ass and legs are drippin'
Piss shoots out there's no control
Shit oozes of your asshole

Urine comes of your fucken schlong
This is the real smell of death
You get high blood pressure
You're in your bed
Heart is weak soon you'll be dead
Your heart gives out it's such a strain
I'm glad you're dead and you felt fucken pain
Your wife wakes up and she is trippin'
Her as
s and legs are drippin'
Piss shoots out there's no control
Shit oozes of your asshole
Urine comes of your fucken schlong
This is the real smell of death
