Mourning has broken  
Life is fading  
Falling to pits  
In endless despair

Awakening of eternity  
Sleeping with eyes open  
Betrayed of sanity  
Cut no bleeding

Strength exhausted  
Soulless extinction  
Strength exhausted  
Soulless extinction

Screaming out in pain  
But no one hears your pleas  
Shattered in your life  
You passing by in time  
Scarred in your mind  
Where are your fatal wounds  
Silence for your piece  
Insanity kills you  
Insanity kills you
