( 1 Verse )

Boy it feels like torture  
That's so bad i want you now,now now  
When your body's near me,  
I just wanna lay him down,down down

Let's find a private corner or a button for this  
crown,crown crown  
Cuz this grinding and this kissing got me wondering  
what i'm missing  
right now,now now

If we don't touch, it be the death of us  
it be the death of us  
if i don't taste your love,it be the death of us

f we don't touch.it be the death of us  
it be the death of us  
if i don't taste your love,it be the death of us  
so come on,on on

God i'm feeling all tonight  
tease me, take me  
get me high

If we don't touch, it be the death of us  
it be the death of us

i'll let you be my daddy  
if you come make mama  
proud,proud proud

Let's find a private corner or a button for this  
crown,crown crown  
Cuz this grinding and this kissing got me wondering  
what i'm missing  
right now,now now

If we don't touch, it be the death of us  
it be the death of us  
if i don't taste your love,it be the death of us

If we don't touch, it be the death of us  
it be the death of us  
if i don't taste your love,it be the death of us

so come on,on on

God i'm feeling all tonight  
tease me, take me  
get me high

Give me mouth to mouth  
let them freaking out  
Cause boy you already know  
Eh...

If we don't touch....  
if I don't taste your love...

So come on, on on

If we don't touch, it be the death of us  
it be the death of us  
if i don't taste your love,it be the death of us

So come on, on on

God i'm feeling all tonight  
tease me, take me  
get me high

If we don't touch, it be the death of us  
it be the death of us
