I'm the kinda girl who's something like a diamond  
Cost a lot, and it's hard to find one  
This is might be a day you won't forget no  
I'll have you doing things you won't regret, so

If you wanna see my wild side (Wanna see my wild side)  
Here's the rules that apply (Keep your eyes on me all the times)  
You gotta let me run the show (I'm a trained professional)  
Make him roar, beg for more  
Not too much, get down boy

You're used to your way  
Boy, it's a new play  
Why fight it when you know that you gon' like it  
Get down boy  
Ju-ju-just enjoy the ride  
Fall back but not behind  
Why fight it when you know that you gon' like it  
Get down boy

Get down, get down  
Get down, get down, get down  
Get down, get down  
Get down, get down, get down  
Get down, get down

Seems like you're scared of a challenge  
Looks like you're nervous, boy quit all that whinin'  
You're not used to one who'll take the time to tame you  
Guarantee that you'll be whipped soon as I get through

If you wanna see my wild side (Wanna see my wild side)  
Here's the rules that apply (Keep your eyes on me all the times)  
You gotta let me run the show (I'm a trained professional)  
Make him roar, beg for more  
Not too much, get down boy

You're used to your way  
Boy, it's a new play  
Why fight it when you know that you gon' like it  
Get down boy

Ju-ju-just enjoy the ride  
Fall back but not behind  
Why fight it when you know that you gon' like it  
Get down boy

Get down, get down  
Get down, get down, get down  
Get down, get down  
Get down, get down, get down  
Get down, get down

I'm gon' throw it back, boy  
Cuz you been a bad boy  
Teach you tricks and show you how to act  
How to act, uh huh huh  
(repeat)

You're used to your way  
Boy, it's a new play  
Why fight it when you know that you gon' like it  
Get down boy

Ju-ju-just enjoy the ride  
Fall back but not behind  
Why fight it when you know that you gon' like it  
Get down boy

Get down, get down  
Get down, get down, get down  
Get down, get down  
Get down, get down, get down  
Get down, get down
