(Feat. Fabolous)

[Rihanna ~ Intro:]

The first time you kissed my lips
The first time your finger tips touchin me
Couldnt resist
The first, the first, the first

The first time you kissed my lips
First time your finger tips touchin me
Couldnt resist I knew I was meant for this
The first time you held me close
The first time I couldnt say no
So lost inside of you knew I was meant for you

[Fabolous ~ Verse 1:]

Now my first time checkin you, only took a second to
Start inspecting you without disrespecting you
Wasn't expecting you to sayin it was affecting you
What you wearing got me staring like you butt naked
boo
It may seem, like I don't even reckon you
But I day dream bout kissin on the neck of you
Style is unpeccable, smile is incredible
Aint nuttin like yah and babie I done met a few
The way I feel, is almost like a crush
My heart beats faster it's almost like a rush
And that's just when you enter in a room
I can tell when ur around by the scent of ur perfume
I can see why the puttin r&b songs together
I feel like Mariah, 'we belong together'
It's my pleasure, I treasure that I met ya
Betcha I can getcha, on the first time

[Chorus:]

The first time you kissed my lips
First time your finger tips touchin me
Couldnt resist I knew I was meant for this
The first time you held me close
The first time I couldnt say no
So lost inside of you knew I was meant for u

[Verse 2:]

Now I remember datin'
The first time was intimidatin'
No rush though, I spent the whole November waitin'
Come on, look at the patience that I'm demonstratin'
After a week or two I usually start eliminatin'
But we got thru the convo on the phone
Now we finally chillin' in the condo all alone
I tried to be the expressive, without bein' aggressive
Just bein' suggestive, a lil more impressive
And I'm a good playa, I listen to the coach
He showed me the playbook and said "this is the
approach",
If you ever wanna score
Cuz some players rush there shot, and that's why they
never on the floor
And that's why, we both feel comfortable
Like long time friends only been a month or two
I got moves, and I know when to make em
But, I only give em if I know you can take em (uh-oh!)

[Chorus:]

The first time you kissed my lips
First time your finger tips touchin me
Couldnt resist I knew I was meant for this
The first time you held me close
The first time I couldnt say no
So lost inside of you knew I was meant for u

[Verse 3:]

Now before the first time we layed down in the bed
You aint know the kind of things that played 'round in
my head
I aint playin around when I said "you gon' remember
this"
Might even turn your cell phone when you reminisce
Our first time we were like virgins with experience
A lil shy, but I urged you to experiment
Things got wetter oh, I mean better
Oh I'm gettin numb
I'm about to Cu-Cu-Cu-Cu-Come on now not yet, boo
slow down
We just stepped in the ring, need a few more rounds
That's the first time it felt like that
Now you know why Fabolous is spelt like that

[Chorus:] [2x]

The first time you kissed my lips
First time your finger tips touchin me
Couldnt resist I knew I was meant for this
The first time you held me close

The first time I couldnt say no
So lost inside of you knew I was meant for u
