It might be last ... last time talk to you
It might be last... last time you touch my body

Verse 2

Do you reason why you never felt the pain, cause I did
that night
Which I love you can you see anything I do for you
You see in my eyes
You can't see the person that I become we see want to
see I can I pick and choose when you I want, hard
decision to make when you're in love
I don't won't feeling have to fend for myself how you
left me
Don't know how to react how that you is wth me

Good girl I believe
Your will it short
My temptation keep rising
So keep close to me baby
How you said forget me
How I forget your name
How do we say good day
Thing we use to in love
