"Immortal"

Visit "[Immortal](#)" on MotoLyrics.com

To be an immortal, one must not devour
To be an immortal, we gotta know what's right
To be an immortal, we must hide our power
To be an immortal, we gotta use our might

It's the time to flutter and go fly
We can do whatever,
We will not lie
Our faces never break a tear
Cause our smiles are coming from ear to ear
So...We're watching you,
Yes... We're protecting you,
Emergency emergency,

To be an immortal, one must not devour
To be an immortal, we gotta know what's right
To be an immortal, we must hide our power
To be an immortal, we gotta use our might

It's time to start flying.
..above the ground, through the stars in the twilight
sky,
Flying...above the moon go round and round till the sun
comes out
Flying...above the ground, through the darkness we will
never die
Flying...above the sun go round and round till the moon
comes out
You are my Immortal, you will live forever

Just come and join my side, I'm letting you in.

To be an immortal, one must not devour
To be an immortal, we gotta know what's right
To be an immortal, we must hide our power
To be an immortal, we gotta use our might

To be an immortal, one must not devour
To be an immortal, we gotta know what's right
To be an immortal, we must hide our power
To be an immortal, we gotta use our might

Immortal, immortal, immortal oh...
Whoa...oh...whoa...

To be an immortal, one must not devour
To be an immortal, we gotta know what's right
To be an immortal, we must hide our power
To be an immortal, we gotta use our might

To be an immortal, one must not devour
To be an immortal, we gotta know what's right
To be an immortal, we must hide our power
To be an immortal, we gotta use our might
