"Last Time"

Visit "[Last Time](#)" on MotoLyrics.com

Once was a time when you and I
Made a promise till the day we died
I trusted each and every word
Never thinking that I'd get burned

Silly me, I believed in your fairy tales
Boy, I thought that I knew you so very well
But you walked on my pride all the tears that I cried
And it cuts like a knife

It's the last time you're ever gonna kiss these lips
Or ever will deceive these eyes
Believe me when I tell you this, baby boy

It's the last time I'm ever gonna cry these tears
I'm never gonna hear your lies
So listen while I make it clear
In case you didn't hear

This time's the last time
There's no time to give it one more try
There's only time to say goodbye

Fool me once shame on you
Fool me twice now the song is through
The things you said I can never forget
The things you did my heart went through bad

But I'm still standing tall as I walk away
And you know that it's true when you here me say
It's over, it's through ain't nothing you can do
Boy, it's sad but it's true

It's the last time your ever gonna kiss these lips
Or ever will deceive these eyes
Believe me when I tell you this
Baby boy

It's the last time I'm ever gonna cry these tears
No I'm never gonna hear your lies
So listen while I make it clear
In case you didn't hear

This time's the last time
There's no time to give it one more try
There's only time to say goodbye
Goodbye, no, baby

Silly me, I believed in your fairy tales
Boy I thought that I knew you so very well
But you walked on my pride all the tears that I cried
And it cuts like a knife

It's the last time you're ever gonna kiss these lips
Or ever will deceive these eyes
Believe me when I tell you this
Baby boy

It's the last time I'm ever gonna cry these tears
I'm never gonna hear your lies
So listen while I make it clear
In case you didn't hear

This time's the last time
There's no time to give it one more try
It's over, it's through, ain't nothing you can do but
wonder why
It's only time to say goodbye

Baby goodbye
'Cause I'm never gonna, never gonna cry no more
Goodbye, goodbye
