I took too much from you  
Gotta change the rules  
Time to lay down the law  
I'm too strong to break  
No matter what they say  
Tried your best  
But you couldn't win

And Tomorrow here you are  
like I fell down from a star  
and the end to what you feel  
changing what you think is real  
You can say what you think  
I told you no to word play  
Its the end of what you know cause I'm back in control

I'm terminated  
All my feelings  
Terminated  
For no reason  
No use in being him and I left to come back as a  
terminator, Uh, the terminator, terminator.

You see my red eye in the night  
You know I'm coming, get ready I pray for hell  
I'm tougher than the rest  
I'm Gonna show I'm the best  
Blow it up  
Till there's nothing left

And tomorrow here you are  
Like I fell down from a star  
And the end to what you feel  
Changing what you think is real  
You can say what you think  
I told you no to word play  
Its the end of what you know Cause I'm back in control

I'm terminated  
All my feelings  
Terminated  
For no reason  
No use in being him and I left to come back as a  
Terminator, uh, the Terminator, terminator.

Somehow hearts of medal  
I'm all machine  
I'm a sauna  
Can't feel a thing  
Judgment day is coming  
No use in running  
Gotta stay to face the music please  
I'm way too fast  
To loose this match  
You can beat me once  
But I'll be right back  
The choices you made  
To me this way  
Better hope that someone  
Can bring you salvation

I'm terminated  
All my feelings  
Terminated  
For no reason  
No use in being him and I left to come back as a  
Terminator, uh, the Terminator, terminator.
