Let's shut all the windows  
And release all the true  
And remind you on me  
The temperature have got me cold  
Like a new treat on me  
(?) can't rock for me

(?)  
What you have done before  
Is coming back like a tornado (Warning)  
The rain is heavy  
Gonna take you by the side

You can't run  
You can't lie  
(?)  
To the sky  
Can't find a shelter  
Pray for your life  
(?)

Stone on the lies

(?)  
What you have done before  
Is coming back like a tornado (Warning)  
The rain is heavy  
Gonna take you by the side
