I just met infatuation, its something in his smile
my obsession you and I
something takes over, pulls me up onto my feet
before i know it i got you pushing up on me

on the floor
under the burning lights,
screaming look behind,
hands on this waist of mine
and I don't know where this will lead
but i'm hoping you tell me
out here whipping my hair all crazy, baby

Doin' it like im at work
im making that thang jump
im making that thang twirk (so get up on it baby)
I'm doin what I do
I make it move
Got me out here whipping my hair awww

Baby, i just might have what you need
sprinkling you with pieces of me
now lets make it a sight to see, baby

On the floor
under the burning lights
screaming look behind
hands on this waist of mine.
And I don't know where this will lead
But I'm hoping you tell me
out her whipping my hair all crazy, baby

Doin it like I'm at work
I'm making that thang jump
I'm making that thang twirk (so get up on it baby)

I'm doin what I do
I make it move
Got me whipping my hair, awww

We flashing pictures, kodak moment memory
Look at the flickers, sparks on my camera screen

The buried treasure, come with me and we will find
Create a perfect world just for you and I

On the floor
...burning lights
screaming look behind
hands on this waist of mine.
And I don't know where this will lead
But I'm hoping you tell me
out her whipping my hair all crazy, baby

Doin it like I'm at work
I'm making that thang jump
I'm making that thang twirk (so get up on it baby)
I'm doin what I do
I make it move
Got me whipping my hair, awww

Baby, i just might have what you need
sprinkling you with pieces of me
now lets make it a sight to see, baby

All them girls in the club (get down tonight)
All them girls grab a boy (doin it right)
All them girls in the club (get down tonight)
All them girls grab a boy (doin it right)
