Baby please, you don't have to explain the reasons

This is me, I know your mind can change like the seasons

Go your way, I know the world is calling your name boy

It's okay, 'cause what we got it ain't gonna change boy

As long as we've been together

You've always been the one

Nobody knows you better

When all is said and done

When your friends start to trip

And you're loosin your grip

And you cant find your way back home

When your world falls apart

And you're lost in the dark

And you know that your all alone

When you just can deal, and you need something real

Someone that'll always come through

Who ya gonna run to?

Who ya gonna run to?

You and me we go back to jump rope and grade school

Memories when you were tryin' so hard to play cool

I don't mind I know that you gotta go through your

changes

Take your time sometimes the heart rearranges

As long as we've been together

You've always been the one

Nobody knows you better

When all is said and done

When your friends start to trip

And you're loosin your grip

And you can't find your way back home

When your world falls apart

And you're lost in the dark

And you know that your all alone

When you just can't deal, and you need something real

Someone that'll always come through

Who ya gonna run to?

Who ya gonna run to?

There ain't nobody who can ever understand like I do (I do)

So when you realize you need the one you said  
goodbye to (bye to)

Look over your shoulder boy and you know who be  
there

You know I'm gonna be right there (right there)

When your friends start to trip

And your loosin your grip

And u can't find your way back home

When your world falls apart

And you're lost in the dark

And you know that your all alone

When you just can't deal, and you need something real

Someone that'll always come through

Who ya gonna run to?

Who ya gonna run to?

When there's nobody else in the world you can put your  
trust in

(Who ya gonna run to)

And you find all the haters around you, they don't  
mean nothing

(Who ya gonna run to)

Who ya gonna run to?
