## "Your Love"

Visit "[Your Love](#)" on MotoLyrics.com

City lights don't shine as bright when were apart  
baby you have got the keys to my heart  
promise that you'll never leave me in the dark  
and If I need your light be my star  
you say you love me, love me, love me  
but that don't do nothing for me  
you've gotta do more than tell me what ur feelin  
cus if u want me, want me, want me, I better become ur  
only  
that's the only way that ill be waiting ohhhh

cus I would just die without it, and there aint know  
doubt about it  
your love, your love, your love  
cus I would never make it without it, and there aint  
know doubt about it  
your love, your love, your love

like a flame that flickers in

come on light my fire  
love me like there is no end  
till the end of time

you say u love me love me love me, but that don't  
do nothing for me  
you've gotta do more than tell me what ur feelin  
cus if u want me, want me, want me, I better become ur  
only  
cus that's the only way that ill be waiting ohhhh

cus I would just die without it, and there aint know  
doubt about it  
your love, your love, your love  
cus I would never make it without it, and there aint  
know doubt about it  
your love, your love, your love
