Hey I've been feeling kind of lonely since you left
Working trough the struggle, the pain within my chest
But I don't know what it is

I've been searching for the remedy
Give mer something that will cure my wounded heart
This is not my kind of melody
But I can't help it baby now that we're apart

Didn't we have something going on
Tell me 'cause I need to know where I did wrong
Can't you see that I need you baby

Hey I've been feeling kind of lonely since you left
Working trough the struggle, the pain within my chest
But I don't know what it is

Hey I've been feeling kind of lonely since you left
Working trough the struggle, the pain within my chest
But I don't know what it is

I've been down in total agony
Is there something I can do to make it/things right
Girl I feel that you're my destiny
Yeah I know it cuz it wuz love at first sight

Didn't we have something going on
Tell me 'cause I need to know where I belong
Can't you see that I need you baby

Oh IÂ´m down on the ground on my knees
I feel so confused
'Cause you are the one that I need
By my side in my life
