I wanna taste, wanna taste  
every part of your lips  
wanna feel, wanna feel  
every touch of your skin  
wanna be, wanna be  
everything that you need  
[yeah]

I wanna go, wanna go  
to the places you hide  
lay you down, lay you down  
under innocent skies  
wanna show, wanna show  
you what it feels like

I'll take you there if you let me, baby  
I can do all that I can  
I don't like how I feelin, baby  
I can no longer pretend

Cause I feel like makin love  
I wanna kiss you all over  
Cause I feel like makin love  
I wanna kiss you all over  
[kiss you all over]

I feel love, I feel love  
when I look in your eyes  
Its so real, its so real  
when you lay here beside  
come embrace, come embrace  
all the love that I have

I believe, I believe  
it was love at first sight  
I just know, I just know  
that this moment is right  
Let me show ya, let me show ya  
what true love feels like

I'll take you there if you let me, baby  
I can do all that I can

No one can harm how I'm feelin, baby  
I can no longer pretend

Cause I feel like makin love  
I wanna kiss you all over  
Cause I feel like makin love  
I wanna kiss you all over  
Cause I feel like makin love  
Cause I feel like makin love

I wanna know, wanna know  
what you feel like  
I wanna know, wanna know  
what you feel like  
I wanna know, wanna know  
what you taste like  
I wanna kiss you all over

I'll take you there if you let me, baby  
I can do all that I can [all that I can]  
No one can harm how I'm feelin, baby  
I can no longer pretend

Cause I feel like makin love [feel like makin love]  
I wanna kiss you all over  
Cause I feel like makin love [oh i feel love]  
Cause I feel like makin love  
Cause I feel like makin love  
I wanna kiss you all over
