I have to admit I lead a fancy life
I've become one of them superstar guys
But sometimes I wish I could turn back the time
- erase and rewind

When I go out people come up to me
They keep on telling me how I should be
I listen, wishing they could leave me alone
- leave me alone

Tonight, I leave my world behind
I'm letting go tonight
Tonight, tonight, tonight
Tonight, I leave it all behind
I'm letting go tonight
Tonight, tonight, tonight

What if I went off duty for tonight
Would I still like me outside the spotlight
Could I still be without all the attention
- the attention

I always think about my dos and don'ts
state an example (yeah) from coast to coast (uhuh)
All the pressure is really wearin' me down
- wearin' me down

The Provider:

The world is yours if you, you let it go, go
We give it all and we never settle for so, so
You can have it all tonight, be as you like
You just gotta take the chance
Come out of the shade and into the spotlight
Danny and The Provider's gonna rock you tonight
