Rise the banner up high  
I stand in the eye of the storm  
The heathens marching to war  
Heart of the night roars  
The battle of the damned

Cold as ice  
I summon the demons of a world beyond  
As the followers of light follows the stream so bright  
I walk my own ground  
Alone I stand in the rime of tide  
My heart is black  
And runs with veins of possession  
My madness is a fact

As the shores of Scandinavium  
Are coloured red by defend of our tribe  
Wings of ravens in the high  
Death by a sight, about the warriors in tide

My heart is cold  
Cold as ice  
I summon the demons of a world beyond  
As the followers of light follows the stream so bright  
I walk my own ground  
Alone I stand  
Stand in the rime of tide  
My heart is black

When we are marching to the end  
Man to man, brothers rise your swords with me again  
With triumph in our hands  
One and all we stood by our land  
One on one we fought til the bitter end  
Together we walk in the halls up north!

As the shores of Scandinavium  
Are coloured red by defend of our tribe  
Wings of ravens in the high  
Death by a sight, about the warrior in a time  
My madness is a fact  
My heart is black

Alone I stand in the tide
