Oooh yah yah...oooh
Boy...

Boy you cannot lie, lie
You think you're slick
I seen you with that trick
You must think I'm blind
But now you know
That boy you gotta go
Boy you cannot lie, lie
You think you're slick
I seen you with that trick
You must think I'm blind
But now you know
That boy you gotta go

Where were you the other night
Rolled by the club and saw your ride (Ride)
So I went inside
To check out what was going on
I spotted you in VIP
Huggin' on some girl in front of me
You didn't even notice I was standing there

Boy you cannot lie, lie (Lie)
You think you're slick
I seen you with that trick
You must think I'm blind (Blind)
But now you know
That boy you gotta go
Boy you cannot lie, lie (Lie)
You think you're slick
I seen you with that trick
You must think I'm blind (Blind)
But now you know
That boy you gotta go

Who is that always paging you (You)
You play it off like you don't have a clue
Do you really think you're dealing with a total fool
Don't even say that she's your friend
I don't wanna hear that lie again

This relationship is coming to the very end
And I'm through with you

Boy you cannot lie, lie
You think you're slick
I seen you with that trick
You must think I'm blind (I'm not that blind)
But now you know
That boy you gotta go
Boy you cannot lie, lie (Boy you cannot lie)
You think you're slick
I seen you with that trick
You must think I'm blind (You must think I'm blind)
But now you know
That boy you gotta go

Boy I can't believe
Anything you say
Anything you do
It's so untrue
I see straight through you
You'll never change
Don't wanna play
Your silly games
Why'd you lie to me
Try to play it off
Like it wasn't you
Boy that ain't cool
Don't even try
Don't even try
Lyin' to me boy
No no€¡

Boy you cannot lie, lie
You think you're slick
I seen you with that trick (Can't lie to me)
You must think I'm blind (Think I'm blind)
But now you know (You know)
That boy you gotta go
Boy you cannot lie, lie (Don't you lie to me)
You think you're slick (You're slick)
I seen you with that trick (With that trick)
You must think I'm blind (Think I'm blind)
But now you know
That boy you gotta go.
