They don't know you like I do  
They don't know bout the things that you put me  
through  
They say I should stick with you  
But I know that they don't know you

They don't know you like I do  
They don't know bout the things that you put me  
through  
They say I should stick with you  
But I know that they don't know you

I'm so tired of hearin' how lucky  
I am to have you in my life  
My friends all think that you're so cute  
Just too good to be true  
I would be  
A fool to let you leave  
Could never find  
Another like you for me  
Yeah (You have that right)

Cause you have a degree  
Got a good job  
Make lots of money  
But we kiss and I feel nothing (ohh)  
All I want is happiness

They don't know you like I do  
They don't know bout the things that you put me  
through  
They say I should stick with you  
But I know that they don't know you  
They don't know you like I do  
They don't know bout the things that you put me  
through  
They say I should stick with you  
But I know that all I want is happiness

What would everybody think if they knew bout  
The games that you play  
Lies that you say

If I told them how when we go out  
You hold out  
Spend your dollars at the club

Or how you keep different girls on the side  
For every other night  
I'm positive  
I know they'd all say  
Should have left you a long time ago  
No, I can't deny  
But I'm still in love with you  
But you  
Are not the guy you used to be  
So many times I tried  
To just ignore  
The hurt, the pain, the tears you bring  
But I can't stay when you don't love me

All I want is happiness

I do, I do  
With you, with you

They don't know you like I do (I do, I do)  
They say I should stick with you (with you, with you)  
They don't know you like I do (I do)  
They don't know bout the things that you put me  
through  
They say I should stick with you (with you)  
But I know that they don't know you

They don't know you like I do (I know)  
They don't know bout the things that you put me  
through  
They say I should stick with you (with you)  
But I know all I want is happiness

They don't know you like I do (I do)  
They don't know bout the things that you put me  
through  
They say I should stick with you (with you)  
But I know all I want, all I want is happiness
