Last night I had a peace dream
You know how real dreams can be
The world was a better place
For you and me can't you see?

No need for war no more
Better things we're fighting for
No more hunger no more pain
I hope I have that dream again

Can you imagine, all of this coming true?
It's really up to all of us to do
Just like John Lennon said in Amsterdam
Conk his bed

One day the world will wake up to see
The reality

Last night I had a peace dream
You know how real dreams can be
The world was a better place
For you and me, can't you see?

(You've got imagine)
No need for war no more
(Try to imagine)
Better things we're fighting for
No more hunger, no more pain
I hope that dream comes true someday

So try to imagine if we give peace a chance
All the world could be living in harmony
One day our dream could be reality, reality

Last night I had a peace dream
You know how real dreams can be
The world was a better place
For you and me

(You've got to imagine)
No need for war no more
(Try to imagine)

Better things we're fighting for
No more hunger, no more pain
We'll make our dream come true someday
