Oh my - my minds playing tricks on me
I'm falling for something I know - I cannot reach
Can I lay with you - and still live with myself
I feel I know you - but you're someone else

Oh you're so cruel
To do what you do to me
Your kind of woman
No man should need
You infect me

Trixie girl - man you're good
You're the low spark in my neighborhood
And damn you're convincing
I can't stand you kissing the other guys
Come back to my window and cry like a schoolgirl
In your sad disguise

Oh you're so cruel
To do what you do to me
Your kind of woman
No man should need
You infect me
