We are the new generation  
We don't care how you deceive  
An eye for an eye, a tooth for a tooth, we believe  
Tell us the price of our freedom  
You tell us we're all born the same  
United we fall, injustice  
In your name

Now we can see, there's one choice  
It's justice replaced by revenge  
We can see, there's no choice  
It's justice replaced by revenge

Our rights have been taken  
High cost of our liberty  
We are the fruit of a nation that's diseased  
One hand the hammer of justice  
The other the hammer of truth  
Who decides on how to retribute?

Now we can see, there's one choice  
It's justice replaced by revenge  
Now we can see, there's no choice  
It's justice replaced by revenge
