I been use i been abused for far too long.  
I got my mind on lettin go.  
Seventy years or more i'm paying for my crime.  
What i've done i just don't know.  
I did my time behind these wallls.  
I hear the sound of freedoms call.

Running from the law, from the law  
That's where i'm at baby

I took my chance i made my stance once and for all.  
No more chains to hold me down.  
I run and hide i will decide to never fall.  
No more Kings to break my crown  
Finally free no more to pay.  
Your battered walls can't make me stay.

No more running from the law, from the law  
From the law, from the law. That's where i'm at now.

No more running from the law, from the law, from the  
law, from the lw  
Not the man i used to be, one more day i will be free.  
i'm running so hard oh no that's right.  
Oh no they ain't never taking me alive baby. That's right
