(Graves/Paine/Shadowz)

### 1ST VERSE:

(vocal:Sadie Paine)

When the full moon lights up the night...  
Thats when my hunger is right...  
The fog creeps and covers the ground...  
Your blood chills when you hear the sound...

### 1ST CHORUS:

A 440 six-pack that screams through the night...  
A wicked black Cuda of muscle and might...  
I'm stalking the city, I'm ruling the night...  
I am The Night Cruizer until morning light...

### 2ND VERSE:

I pull to the curb, I've spotted my prey...  
I smile and lick my lips, you'll do as I say...  
Look deep into my eyes, you feel my fire...  
You'll fill my need as you spill your desire...

### 2ND CHORUS:

I have the power to make you my slave...  
Or eat you and beat you and throw you away...  
But I think I'll bite, you look good to me...  
Once I have done so, you'll never be free...

(lead solo:Rob Graves)

### 3RD VERSE:

Time to shift your gears into overdrive...  
My never ending thirst is unsatisfied...  
Hammering, pile-driving your stake into me...  
Feeding the fire and burning the meat...

### 3RD CHORUS:

Dawn is approaching, I cant hang around...  
Cold, blue and lifeless is how you'll be found...  
I fade into black, I return to the ground...  
New victims await me tonight at sundown...
