(Graves/Paine)

1ST VERSE:

(vocal:Rob Graves)

I walk day and night from grave to grave...
Lurking and searching for someone to save...
By the light of the moon I dig up the ground...
When I know theres no one around...

CHORUS:

I shovel and dig through the mounds of fresh sand...
In hopes of finding a cold and clammy hand...
But all I find is rotting flesh turned to dust...
Even that I hold and fondle with lust...

2ND VERSE:

Digging and poking around your rotting bones...

Who knows what I'll do when its you that I own...
I'll dig up your tomb on a cold night in the rain...
But dont you worry, when youre dead you feel no pain,
sweet pain...

REPEAT CHORUS:

(lead solo:Rob Graves)

3RD VERSE: So when your time comes and your life
must cease... Dont expect to rest in peace (laughs)...
Because I'm waiting to dig you up too... I suggest
cremation the wise thing to do...

REPEAT CHORUS:
