[Graves/Crystal]

[1ST VERSE:]

[vocal: Rob Graves]

Woe...Loud...

We call to you from beyond the grave...

My crusting writhing rotting metal slaves...

Power forged in fire throughout the land...

The weak must die we'll take a metal stand...

[CHORUS:]

Wake, wake the dead...

[2ND VERSE:]

Massive molding armies who have been freed...

Waiting as we plant our metal seed...

Spreading like infection throughout the world...

You'll take our injection with a metal sword...

[BRIDGE:]

Wake, wake, wake...

[lead solo: Rob Graves]

[3RD VERSE:]

I can see them coming through the fire...

I can see them crawling from their graves...

Loud...

[REPEAT BRIDGE:]

[REPEAT CHORUS:]

[4TH VERSE:]

Come join us we'll wake the dead...
