Woah, woah

Bang, bang, go the coffin nails  
Like a breath exhaled, been gone forever  
It seems just like yesterday  
How did I miss the red flames?

Raise these back, the days we left  
We braved these bitter storms together  
Brought to his knees, he cried  
But on his feet he died

What God would damn a heart?  
And what God drove us apart?  
What God could?

Make it stop, let this end  
Eighteen years pushed to the ledge  
It's come to this, a weightless step  
On the way down singing

Woah, woah

Bang, bang, from the closet walls  
The schoolhouse halls, the shotgun's loaded  
Push me and I'll push back  
I'm done asking, I demand

From a nation under God  
I feel it's love like a cattle prod  
Born free but still they hate  
Bore me, no, I can't change

It's always darkest just before the dawn  
So stay awake with me  
Let's prove them wrong

Make it stop, let this end  
Eighteen years pushed to the ledge  
It's come to this, a weightless step  
On the way down singing

Woah, woah

The cold river washed him away  
But how could we forget?  
Gathering the candles  
But not their tongues

And too much blood has flown from the wrist  
Of children shamed for those they chose to kiss  
Who will rise to stop the blood  
We're coming for, insisting on  
A different beat, yeah, a brand new song

Woah  
A brand new song  
Woah, woah, woah

(Woah)  
Make it stop, let this end  
This life chose me, I'm not lost inside  
(Woah)  
I'll better stand, out here I am  
I'll better go on living

(Woah)  
Make it stop, let this end  
Of this years pushed to the land  
(Woah)  
I'll better stand, out here I am  
I'll better go on living
