Hold on slow down  
Again from the top now and tell me everything.  
I know I've been gone for  
What seems like forever  
But I'm here now waiting  
To convince you that I'm not  
A ghost or a stranger  
But closer than you think  
She said just go on to what you  
Pretend is your life but  
Please don't die on me

Wings won't take me  
Heights don't phase me  
So take a step  
But don't look down, take a step

Now I'm standing on a rooftop ready to fall (ready to fall)  
I think I'm at the edge now but I could be wrong  
I'm standing on a rooftop ready to fall

Perpetual motion the image wont focus  
A blur is all that's seen  
But here in this moment like the eye of the storm  
It all came clear to me  
I found a shoulder to lean on  
An infallible reason to live all by itself  
I took one last look from the heights that I once loved  
And then I ran like hell  
Wings won't take me  
Heights don't phase me  
So take a step  
But don't look down take a step

Now I'm standing on a rooftop ready to fall (ready to fall)  
I think I'm at the edge now but I could be wrong  
I'm standing on a rooftop ready to fall

I count the times that Ive been sorry (I know I know)  
Now my compassion slowly drowns (I know I know)

If there's a time these walls could guard you (I know I know)  
Then let that time be right now

Now I'm standing on a rooftop  
Now I'm standing on a rooftop ready to fall (ready to fall)  
I'm standing on a rooftop ready to fall  
I think I'm at the edge now but I could be wrong  
I'm standing on a rooftop ready to fall  
Now I'm standing on a rooftop(ready to fall)  
Now I'm standing on a rooftop(ready to fall)  
Now I'm standing on a rooftop(ready to fall)  
Now I'm standing on a rooftop ready to fall
