

Rise Against "State Of The Union"

Visit "[State Of The Union](#)" on [MotoLyrics.com](#)

If we're the flagship of peace and prosperity
We're taking on water and about to fucking sink
No one seems to notice, no one even blinks
The crew all left the passengers to die under the sea

Countdown
To the very end
Equality
An invitation that we wont extend
Ready, aim
Pull the trigger now
In time you
Firmly secure your place in hell

State of the union address
Reads war torn country still a mess
The words: power, death and distorted truth
Are read between the lines of the red, white and blue
Countdown
To the very end
Equality
An invitation that we wont extend

Ready, aim
Pull the trigger now
In time you
Firmly secure your place in hell

"guilty" is what our graves will read
No years, no family
We did nothing to stop the murder of
A people just like us
