

Rise And Fall

"The Noose"

Have you ever seen yourself
The way that I've seen you
You're your own worst enemy
You're the one that's killing
Feel your noose tighten
This is your life
This is what is left
As time slips away
Your world caves in
Yeah the noose gets tighter
Suckered into something you never wanted
Bound and gagged, dragged by your feet
Suckered into something you never wanted
And now the curtain falls
