

Rise And Fall "The Void"

Visit "[The Void](#)" on MotoLyrics.com

Are you satisfied?
It's all been watered down
The truth has been bought and sold
And shoved down our throats

Breeding monsters, breeding fear
They want us all on our knees
So live your life desensitized
So live your lie, just close your eyes

You'll only know what they want you to know
You'll only see what they want you to see

Just close your eyes
Greedy minds with greedy eyes
Architects of our demise
They will try to cut us down
Fists held high, not this time

Breeding monsters, breeding fear
They want us all on our knees
Caught in the void
